

## **Indiana Department of Homeland Security**

### **State Design Release Information**

#### **Plan Review**

---

The Plan Review staff reviews plans for construction and alteration of Class I structures for compliance with applicable adopted codes and standards, and prepares design releases for approval by the State Fire Marshal. Three main programs are included in this process: project filing, review and release documentation.

The stated goal of this process is to accurately review and release construction plans within ten working days of their filing. Another program, not directly affecting the release turnaround time, is customer correspondence.
